Q1

COS_AT2_CAPSTONE DEMO

1 MARK

1/1 ANSWERED

Q1 COS_AT2_CAPSTONE DEMO

1 mark

Category Criteria

1. Project Understanding Problem statement, objectives, requirements, and overall understanding 10 Marks
 2. OOP Concepts Classes/objects, encapsulation, inheritance, polymorphism, abstraction 20 Marks
 3. C++ Implementation Correctness, program structure, functions, constructors/destructors, STL, appropriate C++ features 15 Marks
 4. Project Functionality Core features work correctly; input/output and expected results 15 Marks
 5. Debugging & Error Handling Identifying bugs, exception handling, validation, handling invalid inputs 10 Marks
 6. Code Quality & Optimization Readability, modularity, efficiency, memory management, avoidance of unnecessary operations 10 Marks
 7. Project Demonstration Live demonstration, feature explanation, execution, handling different test cases 10 Marks
 8. Viva / Technical Questions Ability to explain code, design decisions, OOP concepts, and answer technical questions 5 Marks
 9. Documentation & Presentation Project report, diagrams/design, screenshots, presentation quality 5
- Total 100
